

# WATERHOG™ PREMIER

Sometimes the need for a tough mat extends beyond exceptional performance to include down-right beauty. Introducing the Waterhog Premier, an amazing mat series combining all of the performance features of our original Waterhog with an innovative rubber reinforced face design for added beauty and performance.

Waterhog Premier's unique, diamond-shaped face pattern is available in six well-balanced colorways, creating the ultimate visual appearance. Waterhog Premier also features a 36-ounce heavy-duty multi-denier yarn system, 33% heavier than our original Waterhog. The dual fiber construction combines thick fibers for scraping with thin fibers for wiping, providing better mat performance and longer life.

Like the original Waterhog, Premier's rubber-reinforced face pattern prevents crushing under the highest traffic areas.

And too, like its predecessor, Waterhog Premier features a "water-dam" around the border which traps dirt and water, keeping them off carpets and floors.

Waterhog Premier's impressive anti-static ratings average 1.2KV. In fact, Waterhog Premier mats have a maximum average voltage of 1.6KV as measured by the AATCC and meet IBM's minimum standard for electrical resistance—so they are safe for use in computer rooms and around electronic equipment.

## FEATURES & BENEFITS

- A** Unique ridged construction effectively removes and traps dirt and moisture beneath shoe level.
- B** Exclusive rubber-reinforced face nubs prevent pile from crushing—maintaining high performance and extending product life.
- C** Premium polypropylene fiber system allows fabric to dry quickly, and prevents fading and rotting. Mats can easily be vacuumed or hosed off.
- D** Anti-static ratings averaging 1.2KV with a maximum average voltage of 1.6KV as measured by the AATCC.
- E** Special gripper rubber backing minimizes movement on carpet or hard surfaces.
- F** Exclusive “water-dam” allows Waterhog Premier to trap dirt and water so they stay in the mat and off of your floor—minimizing slip hazards and floor damage around the perimeter of the mat.
- G** A wide selection of 16 standard commercial sizes makes finding the right mats for your needs quick and easy.

### CONSTRUCTION

Face:	Molded reinforced textile
Yarn:	Solution-dyed Polypropylene
Pile Height:	3/8"
Face Weight:	Heavy 36 ozs./sy
Backing:	SBR Rubber

Passes flammability standards DOCFI-70. Not recommended for use in areas exposed to grease or petroleum products.

## COLORS

Note: Colors subject to change from dye lot to dye lot.

170) Indigo

171) Southern Pine

172) Black Smoke

173) Grey Ash

174) Chestnut Brown

175) Maroon

## SIZES

### Standard

2'x3'	3'x4'	3'x5'	
3'x10'	3'x12'	3'x16'	
3'x20'	4'x6'	4'x10'	
4'x12'	4'x16'	4'x20'	
6'x8'	6'x12'	6'x16'	6'x20'

Available in standard sizes only, no seaming.
